

It's a God Thing!!!

by Janet M. Stryker

Holy Cross Lutheran Church

When you wake up on time
But your alarm didn't ring
When you don't feel like laughing
But are willing to sing.
When you're puzzled and wonder
Don't give it a thought
The answer is quite simple
It's a God Thing.

When you search for an idea
And it was there all along.
When things suddenly go right
When before they went wrong.
Don't look any farther
An explanation to find
It's really very simple
It's a God Thing

When you're late for a meeting
And your boss is late too
When you're meeting a stranger
But it's someone you knew.
The funny thing is
That it's sure meant to be
Just another example
Of a God Thing.

When your wallet is empty
And buying milk is a need,
You reach in your pocket
Five dollars indeed!
It didn't just grow there
It wasn't a trick.
It's a God Thing again
So don't be so thick!

When you think of an old friend
And he calls you that night
Don't think it's just freaky
Please look at it right.
God planted the notion
In both of your minds
To talk to each other.

Is another God Thing.

When you are determined
To do one thing or another
But things don't go right
You might think, "Oh, brother!"
You really should be
Looking high up above
Because what just happened
Was a God Thing!

When you look at a sunset
And drink in the sight
Or look at the sunrise
The day's starting out right.
The awesome feeling
That over takes you then
Can only be one thing
It's a God Moment!

When you hold your first child
Or your grandchild so tender
For the first time or second
And your heart you surrender
What stirs deep within you
Must come from on high
It's nothing you did,
It's a God Moment!

When you need something badly
And you ask it in prayer
If you receive it tomorrow
That wouldn't be so rare
Don't think, "It is strange.
A coincidence. So There!"
Be assured that it's really
A God Thing!

When it's peach skin you want
But the cost is too high
And the man says, "Guess what!"
"It's on sale if you buy."
Don't think it's dumb luck
Don't make fun of me
When what I believe is
That it's a God thing.
